COMMANDERS CHANGE

The Swedish Minister of Defence introduces his ADC Major Anerud to the Force Commander General Quinn at the start of his visit to the Headquarters in Nicosia.

His Excellency Mr Erik Krönmark the Swedish Minister of Defence visited Cyprus last week to see the Swedish Contingent in Famagusta. During his visit he called on the Force Commander in Nicosia. While he was at Force Headquarters he was briefed by the Chief of Staff Brigadier H.M. Tillotson CBE. The Minister was accompanied from Sweden by the Under Secretary Mr Gunnar Nordbeck, Rear Admiral Dag Arvas, the Chief of the Defence Staff Lieutenant General Lennart Ljung, the head of the UN Section of the Army Staff Colonel Yngve Ekman and Mr Lars Schonander the Section Head at the Swedish Ministry of Foreign Affairs.

The Commander of the United Nations Flight of the Army Air Corps Major D.N. Thornehill has ended his tour with UNFICYP. He is seen above handing a helicopter and "stick" over to his successor Major C. Blount before leaving for a new post in Hong Kong.

PATROL COMPETITION NOT A SUNDAY WALK

Some weeks ago, Sunday was not the usual day of rest for the Swedish Battalion, and especially not for those who took part in the Battalion's Patrol Competition in the hilly country around Fig Tree Bay, on the south coast of the Island. The Patrol Competition began at Dhekelia rifle range, where no hits while firing meant five minutes would be added to the final time taken by the patrol. This plus the daunting fact that the competitors knew that they had only 40 minutes in which to reach the next check point where the navigation part of the competition was to start, set the tone for the whole competition. The patrols had to go by the quickest

route — over a distance of 12 kms — round the five check points. At the first point they had to run over a particular track of difficult terrain, at the others they had different tasks to complete including throwing practice hand grenades, estimating distances to objects and so on. The final task was to carry a soldier on a stretcher about 80 metres. The fastest managed to complete the run with the "wounded" comrade within 20 seconds. At the finish of the competition most of the soldiers were exhausted, but they admitted that the day had been "interesting". They even made a request for more similar competitions.

The 1st Battalion The Parachute Regiment are shortly to complete their six month tour in Cyprus and return to their home base in Aldershot. To mark this event the Battalion free fall team gave a display at St Davids Camp in which they jumped in two parties from different heights. At the end of the display the team were presented to the British High Commissioner His Excellency Mr D.M. Gordon CMG to whom they presented a regimental shield.

After the display the Regiment's Band and Drums performed the Beating Retreat ceremony.

AUSCON'S WHITE HORSES

On the 25 March the new Pinzgauer Cross Country Vehicles for AUSCON arrived in Cyprus by sea on board of the YUGO-Line "SKOPJE". Looking back to 1972 the UNAB 1 equipment was also shipped by the "SKOPJE".

"Die weißen Pferde von Österreich"

Ausnahmsweise ist diesmal nicht von den Pferden der weltberühmten Spanischen Hofreitschule die Rede, sondern von unseren "Pinzgauern", den für den UN — Auslandseinsatz weiß lackierten, österreichischen Gefärdedfahrzeugen: Wir kennen natürlich die Leistungskapazität dieser Fahrzeuge bereits von Österreich, aber hier auf der Insel konnten wir uns ganz besonders von den Pinzgauerausqualitäten überzeugen und begeistern. Das rauhe Gelände in der Pufferzone fordert Mensch und Maschine bis zur äußersten Leistungsgrenze.

Kein Wunder, daß am 25. März 1977 die Ankunft von 8 weiteren Pinzgauern in LARNACA von unserem KO, Hptm REISENAUER, seiner Mech Crew und besonders von den Pinzgaueraufahrern freudig begrüßt wurde. In "Joint Operation" mit dem S 4,

Hptm KNOTZER, und seinen Männern wurden nach einigen "Papiergefechten" mit den befaßten zypriotischen und UN-Dienststellen am 26. März 2 San-Pinzgauer, 1 Pinzgauer-Wasserwagen, 5 Zweiachser-Pinzgauer, 2 VW-Busse und ein M3-Kipper aus dem Hafen LARNACA ausgefahren. Sofort nach Eintreffen im Camp LEOPOLD mußten von unserer bewährten Mechaniker-Crew die notwendigen Vorbereitungsarbeiten (Abwaschen des Seewasserbelages etc.) durchgeführt werden, um in kürzester Zeit die Pinzgauer in ihr ursächliches Element, ins Gelände, zu bringen.

Als besondere Überraschung wurde von Oldtimern vermerkt, daß der Fahrzeugtransport von demselben Schiff durchgeführt wurde, welches seinerzeit im April 1972 des gesamte Gerät — einschließlich der Fahrzeuge — des 1. Österreichischen Kontingents beförderte, dem Frachtschi ff "SKOPJE".

Undoubtedly this car is a favourite with our drivers, because of its unique performance when driving in difficult terrain.

The people who are specialized to service the new vehicles are from left to right: L/Cpl GEDER, L/Cpl WEISS, WO I MASKA, WO I PICHLER F., L/Cpls SCHREIBMEIER, KIRSCH, and MOTTINGER.

The main news in the Canadian Contingent is the rotation of the major unit in the contingent which begins this week.

Third Battalion The Royal Canadian Regiment will shortly hand over responsibility for Sector Four to 12e Regiment Blinde du Canada. The official hand-over takes place on 7th April, and the last personnel from 3 RCR will leave Cyprus on 8th April. The Commanding Officer of 3 RCR, Lt Col D.B. Ells CD, and all ranks of the Battalion wish to thank everyone in UNFICYP for the fine spirit of cooperation and friendship which existed in our tour. Many of us have made friendships that will never be broken! all of us have made acquaintances and have picked up a sense of international soldiering which will never be forgotten.

The Officers and men of 12e Regiment Blinde du Canada come to Cyprus from their Base in Valcartier, Quebec. Normally an armoured regiment, 12e RBC will be deployed as an infantry battalion for its tour in Cyprus. The Regiment is also supplemented from X Battery of 5e Regiment d'Artillerie Legere du Canada, a light artillery unit also from Valcartier.

FINCON NEWS

....TYÖTÄ....

Komentotoimistoissa työskentelivät upseerit pitivät konferenssiaan FINCONissa 24. maaliskuuta. Päivän aikana keskusteltiin eräistä henkilöstöhallintoon kuuluvista asioista. Lähiaikoina tullaan kiinnittämään huomiota mm. UNFICYPin jäsenten tervehtimiseen. YK-mitalien jakiperusteita täsmennettiin ja korostettiin liikenne-onnettomuuksia koskevan materiaalin toimittamista hyödyntämään mahdollisimman laajoja piirejä.

VAPAA-AIKAA....

Ryhmiä veneenrakennuksesta kiinnostuneita FINCONin jäseniä on askarrellut keväänä kuluessa pioneerivarastolla. Tuloksena on jo puolivalmis vene ja paljon kokemusta. —Että milloinkin vene veisille? —o, viimeistään silloin, kun jäät lähetevät!

MUTTA MIKÄ TÄMÄ ON?

Pioneerivarastolla taipuu myös rauta. Tuloksena on tällä kertaa a) ikiläikkuja, b) tislauslaite, c) Valmetin kehittelemä salainen ase. Viimemainittu vaihtoehto on lähiinä oikein. Suomalaisten uusin salainen ase on kiuas design—Kuuppo. Hyvät on löylyt. Käykää kokeilemassa!

UNCIVPOL NEWS

As mentioned in the last issue, an indoor sports competition for the Civilian Police Contingents has just been completed. It resulted in a win for the Swedish Police. On 30th March the winners were presented with the Dancivpol Cup by the Police Adviser, Assistant Commissioner J Hamilton OBE QPM. In the picture Inspector T Larsson is seen receiving the Trophy at a social afternoon in the Cop Inn.
